

## Hoods and Gags

**HT222 DOG HOOD \$425.00**

This dramatic hood is shaped like a dog's familiar features. It has an elongated zip front snout with breather holes and back lacing for a comfortable fit and tall attentive ears. This hood does not fit tight on your head and face like some of our other bondage hoods due to the shape of the snout. This hood comes in all black or in two-tone black and brown leather (shown here). Just about any puppy boy would be wagging his tail if this hood were added to his puppy play scenes. Be sure to specify all black or two-tone.

If you like the look and feel of a ball gag, but don't like the fact that many of the old style ones were always pinching the mouth, or worse yet, that you could easily spit them out - well this Deluxe Ball Gag is just what you have been looking for! The hard and chewy ball is connected to the

locking leather strap by flexible rubber-coated flat metal strips that go completely thru the center of the ball. No sharp or abrasive edges in your mouth or at the sides!

*When buckled and locked tightly, you can not spit this sucker out!* Ball comes in RED or BLACK and in 1 1/2" and 1 3/4" diameters. Lock sold separately.
